Let's Celebrate Inclusive Schools Week

Introduction

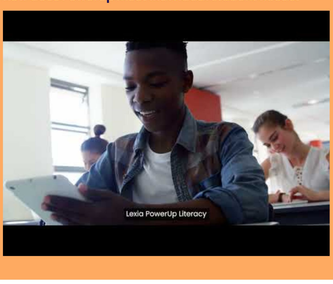
Lexia® PowerUp Literacy® is a solution for students at risk of not meeting College- and Career-Ready Standards. The program respects the maturity of middle and high school students through its engaging, age-appropriate, and culturally responsive design and content. PowerUp is effective for all adolescent students including BIPOC, special education students, and Emergent Bilinguals.

Lexia POWERUP LITERACY

Literary Representation Matters

PowerUp's Comprehension strand has over 100 high-interest texts in 16 passage reading levels. The diverse authorship and relevant topics cover multiple genres, including Narrative, Information or Expository, Drama, Poetry, and Multimedia Formats.

How does PowerUp meet individual student needs?



"Lexia® has been a great way for my students to independently practice reading comprehension. They are motivated to 'PowerUp' and maintain their streaks."

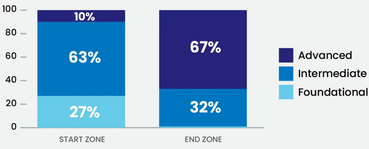
— Ellen Rhoney, Teacher, Remedial Reading, Benjamin Franklin Middle School, Buffalo, NY

Inspiring Individuals

Statewide Progress in Comprehension

PowerUp addresses the two essential components of reading comprehension for grades 6-12: decoding (word recognition) and language comprehension. Students develop skills and strategies needed for higher-order text analysis using increasingly complex original and authentic texts. Homing in on comprehension creates independent and strategic readers!

*Statistics are from the 2022–2023 NY State Progress Report



What educators are saying about PowerUp

Over **25,243 students** in grades 6–12 used PowerUp across **328 schools** in New York.
