

THE RESEARCH SPEAKS FOR ITSELF¹

Emergent Bilinguals who use Lexia® English Language Development® outperform non-users on assessments of language proficiency. Across several studies, effect sizes for Lexia English ranged from **0.15 to 0.40**.

ACADEMIC CONVERSATIONS

302.5k total hours of conversation

4.2M total number of conversations

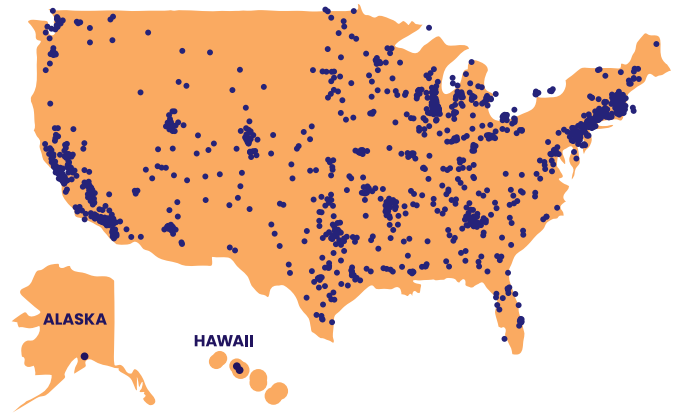

57% of time using Lexia English was spent in conversation

VOICES OF LEXIA® EDUCATORS

“ I have watched [my students'] ability to enunciate improve and their self-confidence increase.

“ I like that the students get to choose different characters to interact with, showing them different cultures and language can still be universal.

ACADEMIC YEAR 2022–2023

140,100+ STUDENTS **5,900+** SCHOOLS **61,300+** EDUCATORS

STUDENT-DRIVEN LEARNING²

Students who used as recommended:

Built speaking, listening, and grammar skills by completing an average of **182 units**

Demonstrated what they learned across an average of **28 Presentations of Knowledge**

Made progress such that **2 in 5 students moved up** to the next proficiency band in the program

ALIGNS TO MULTIPLE ENGLISH LANGUAGE PROFICIENCY STANDARDS

✓WIDA ✓CA ELD ✓TX ELPS ✓NY ELD ✓ELPA 21

2. Results for 26,327 K–6 US students who used Lexia English between 8/1/2022 and 5/28/2023. Students were considered to have used the online portion of Lexia English as recommended if they used the program for at least 10 weeks and had an average of 30+ minutes/week of usage for grades K-2 students and 45+ minutes/week of usage for grades 3-6 students. Data compiled and analyzed by the Lexia Research Team.
