Accelerate Literacy and English Language Proficiency With Proven After-School Solutions From Lexia

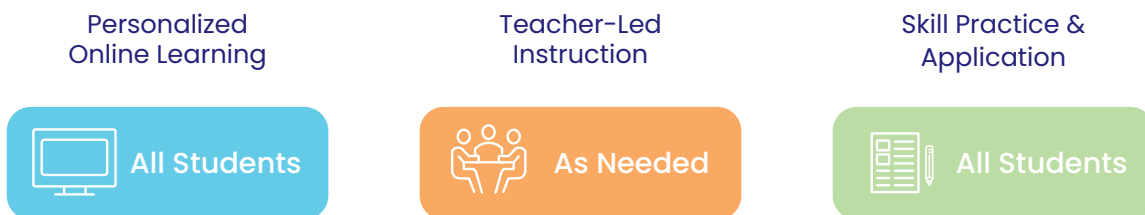

The Expanded Learning Opportunities Program (ELO-P) provides funding for after-school enrichment programs for transitional kindergarten through sixth grade. Use your ELO-P funds to accelerate development of academic language and literacy skills with Lexia’s research-proven solutions. Lexia® Core5® Reading, Lexia® PowerUp Literacy®, and Lexia® English Language Development® meet requirements for California’s ELO-P Grant Funding and after-school programs for students in grades TK–6.

Lexia’s Flexible Instructional Models for After-School Programs Complement Existing Curriculum

Accelerate student literacy and language skills development during extended learning opportunities with after-school enrichment programs that also support daily instruction using Core5, PowerUp, and Lexia English. After-school implementation models can include:

- **Personalized online learning:** Students work independently in the online Lexia student program(s). Teachers monitor student progress during the after-school program and use the data to plan targeted daily instruction.
- **Teacher led instruction:** Teachers support after-school learning by working with students individually or in small groups.
- **Skill practice and application:** Teachers utilize Lexia Lessons® and Lexia Skill Builders® to target students’ literacy and language skills development skills during after-school enrichment time.

SUCCESS STORY

California District Uses ELO-P Grant to Build an Award-Winning After-School Program

Discover how educators at Hemet Unified School District used ELO-P grant funding to accelerate students' literacy development with an award-winning after-school program that incorporates literacy learning with Core5 and PowerUp.

View the Success Story

We want our students to read . . . to engage. We have incentives when they finish their units. [Teachers] can see the ongoing growth that is taking place with their students.

—Anita Williams, Expanded Learning Opportunities Program Coordinator
Hemet Unified School District, Hemet, CA
