

Literacy Score Increases, Year After Year

CHALLENGE: Address skill gaps among students with a diverse range of needs. Also address the “instructional gap,” caused by insufficient tools and resources.

SOLUTION: Lexia® Core5® Reading

Jason Griffin, executive director of elementary and federal programs for Craven County, tells his district’s story.

Intentionality in Implementation

“We have been very intentional with Core5 and our professional development. We have district elementary coaches who help with onboarding, to ensure all teachers know how to use Core5.”

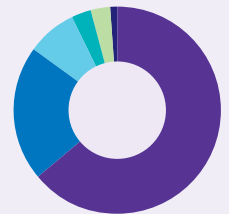

State Report Success

“A report came out recently from the state department showing that Craven County has returned back to pre-COVID numbers.”

The North Carolina LETRS Connection

“All the work we’ve done with [Lexia®] LETRS®, also ties in with Core5. We had Core5 first, and when we added LETRS, it was like lightbulbs went off. Teachers see all the connections.”

“We have seen increases in our end-of-grade scores, consecutively, for five years.”

92% of students who met Core5 usage targets advanced at least one grade level of material.*

*During the school year 2022–2023. All students n=5,822. Students meeting usage n=4,601.
