

See the Growth: NYS ELA and DIBELS 8 Scores Improve Alongside Core5 Use

One New York district shows that shifting to the science of reading WORKS. With Lexia® Core5® Reading, educators elevated scores and closed gaps for all learners. See the growth students achieved in a single year.

Proven Indicators for End-of-Year Success

Study 1: 1,013 students in grades 3–5

- ✓ Students working on higher levels in Core5 are likely to have **higher scores on NYS ELA**, with a correlation of .60.*
- ✓ Progress in Core5 also aligned with an increase in the number of students **scoring at or above grade-level proficiency**.

Study 2: 1,702 students in grades K–2

- ✓ Students working on higher levels in Core5 are likely to have **higher scores on DIBELS 8**, with correlations ranging from .64 to .74.*

**correlations of .35 and above are considered strong*

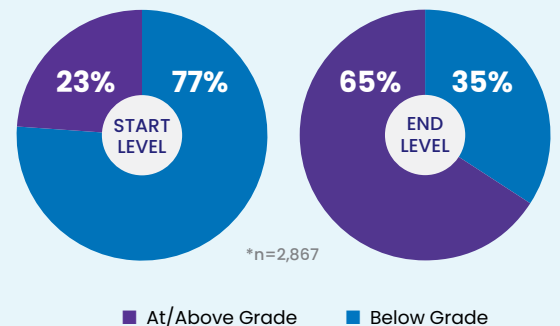

District Snapshot

- Large urban school district in New York
- Approximately 28,000 students
- 82% reporting ethnicity other than White

Core5 Leads to Grade-Level Reading

The number of students working in or above grade-level materials nearly tripled by end of year when they met program usage.

Core5 Helps Close the Gap

90% of students starting below grade standards advanced **at least one grade level of material** in one year when they used Core5 with fidelity.

Flip the narrative and give all students the equitable, high-quality learning opportunities they deserve.
