

# Secret Sauce for Literacy Success: Lexia English & Core5

## CHALLENGE

A growing Emergent Bilingual student population, many of whom speak little to no English.

## SOLUTION

**Lexia English Language Development™**  
+ **Lexia® Core5® Reading**

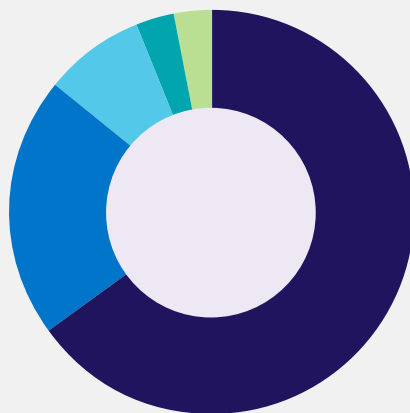

**Kathleen Brinson**, multilingual teacher and refugee school impact coordinator, and **Taylor Stewart**, K–5 ESL teacher, worked with Lexia® and their district to create a plan for newcomer success.

“Our district started using Core5 several years ago, and then Kathleen and I piloted Lexia English—and we loved it.”

## District Demographics

- Rural District
- 12,755 Pre-K–13 Students
- Emergent Bilingual Students: 12.1%
- Economically Disadvantaged: 30.8%

- 65% White
- 21% Black
- 8% Hispanic
- 3% Asian
- 3% Two or more races

## Superstar Success

Brinson shares a particularly inspirational story: One second grade student arrived from Honduras in 2021 with no English experience at all. Every night, he and his mother worked faithfully through Lexia English, and then Core5.

I saw him go from no English usage to being *at or above grade level*. In his third year, he’s on grade level. From zero to grade level is HUGE.”

## Real-Time Reporting

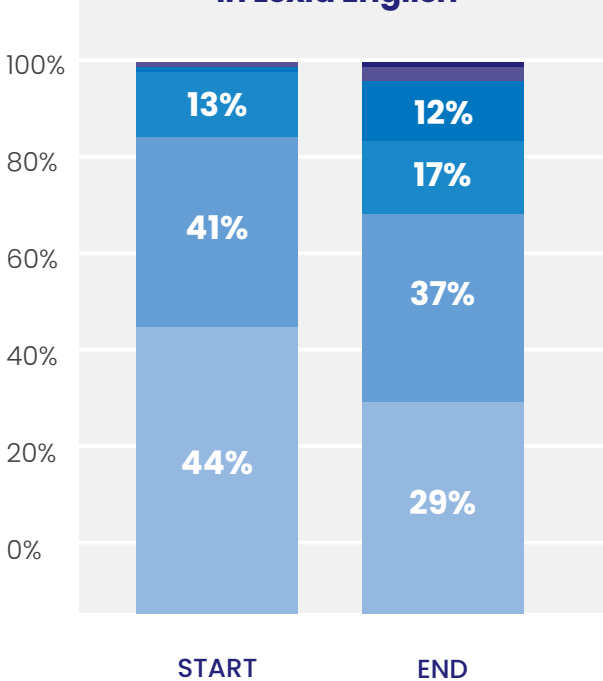

Like Core5, Lexia English offers real-time student progress data reporting through myLexia®. Educators and administrators are able to make informed decisions to accelerate learning, improving student literacy and test scores.

## Better Together

By using Lexia English and Core5, educators provide students everything they need. Not just phonics, not just vocabulary—students have the opportunity to practice listening, reading, writing, and especially speaking independently and then they have lessons to build those skills.

## Proficiency Band Progress in Lexia English\*

**44%** of district students who met usage targets moved up **at least one proficiency band** in Lexia English for SY 2022–2023.

## Proficiency Band
