

Reasons to Choose *for Washington Schools*

Every school in Washington is unique, and Lexia® offers the flexible, personalized learning each school needs to boost student achievement.

- Lexia® PowerUp Literacy® **aligns to the state-funded Learning Assistance Program (LAP)** for Supplemental Supports
- Personalized, data-driven literacy instruction for all students based in the science of reading
- Provides WA ELA standards-aligned, teacher-led lessons and resources to meet students' needs
- Empowers teachers to differentiate instruction based on real-time, WA ELA-aligned student data
- Embedded assessment, including Assessment Without Testing® technology, saves educators valuable instruction time without stopping for a testing event
- Student ownership of performance and progress toward personalized goals
- Built on an Adaptive Blended Learning model for flexible classroom implementation
- Effectively supports all MTSS and RTI frameworks
- Real-time, on-the-spot, WA ELA-aligned progress monitoring saves educators time

“

I use the reports from a district level—knowing which schools are doing well and who might need support. I've trained teachers to use them to know exactly where their kids are, who needs more time, who needs support, and who needs to be celebrated.”

—**Tami Smith**, 6–12 ELA Facilitator
 Federal Way School District, WA

Proven to deliver multiple years of **growth** in a single year
