With What Time?
Save Time and Close Literacy Gaps With Lexia® Core5® Reading

Lexia CORE5™ READING

17 days of instructional time saved

One month of program usage: Determines students' overall risk levels, likelihood of year-end achievement

10 weeks of program usage: Closes gaps for the most at-risk students

Embedded Assessments Reduce Testing Time

- **Auto-placement** personalizes learning pathways to meet students where they are, differentiating instruction without additional teacher prep.

- **Assessment Without Testing® (AWT)** continuously monitors student progress without stopping to take (or grade) a test.

- **Automatic, strategic skill checks verify skill mastery before** students progress to the next level.

> "Core5 gives me time for small-group instruction and ensures my students grow as readers!"
>
> — *Third Grade Teacher*

Data-Driven myLexia® Platform Maximizes Instructional Time

- **Reveals insights through real-time progress monitoring:** Highlights achievements to celebrate and shows where students need more support.

- **Creates action plans:** Prioritizes "to-do" lists, helping teachers tailor their lessons and interventions.

- **Recommends targeted online and offline resources:** Lexia Lessons® and Lexia Skill Builders® provide extra practice and instruction for individuals or small groups.

- **Prescribes instructional intensity level:** Determines how many minutes a week students need in the program based on growth.

- **Predictor reports:** Identify students on track or at risk for not meeting grade-level benchmarks from an individual to district level.

Core5 saves time and transforms outcomes.
