

This document shows how Lexia® English Language Development™ aligns with California’s English Language Development Standards for Kindergarten through Sixth Grade.

Lexia English is an adaptive blended learning speaking and listening program that supports students’ English language development through academic conversations. Developed to address the need for educational equity for Emergent Bilinguals, Lexia English offers an engaging, individualized approach that helps students’ language proficiency.

Using This Resource

Lexia English is an adaptive blended learning model comprised of two components.

1. A series of individualized, interactive learning units that students complete independently online. Each online encounter has a variety of components (see table below).
2. Targeted teacher-led, offline lessons designed to provide additional learning support and expansion opportunities with newly learned skills.

Educators can use this resource to plan instruction and monitor the pacing and introduction of new skills while implementing Lexia English.

Components of Lexia English	
Online Encounters	
Conversation Units	<ul style="list-style-type: none"> • Prepare students to participate in classroom conversations with peers and teachers. • Students listen and repeat question and answer sentence frames that are introduced by a character.
Grammar Game Units	<ul style="list-style-type: none"> • Prepare students to use and manipulate the target grammar words and phrases used in the language frames throughout the lesson. • At the early levels, students may only focus on repeating the target grammar words or phrases or producing the grammar with support and prompting. • As the levels increase in difficulty, students may select the correct words or phrases to complete a phrase or sentence in multiple-choice items or completion items, or put scrambled words, phrases, or sentences in sequence or the correct order (vertical ordering).
Listening Game Units	<ul style="list-style-type: none"> • Prepare students to listen to stories and conversations and answer questions based on the text. • Students listen to a literary or informational text broken up into short sections. After each section of text, students answer comprehension questions about the text with aural, textual, and visual support.

Teacher-Led Offline Instruction	
Lexia Lessons: Listening Practice	<ul style="list-style-type: none"> • Prepare students to listen, read, and answer questions about a text. Provide additional opportunities for students to learn the Listening Practice Lessons skill and sentence frames presented during the online encounters. • Students are guided through a close reading focused on the Listening Practice Lessons skill and comprehension strategy assigned to the lesson. Students use the language frames to talk about the text and to practice conversations through peer dialogue.
Lexia Lessons: Speaking Practice	<ul style="list-style-type: none"> • Prepare students to listen, read, and write the sentence frames. Provide additional opportunities for students to apply the sentence frames in written work. • Language frames are first modeled, and then students collaborate to practice the language frames by using several interactive routines to practice conversations through peer dialogue. • The writing task helps students practice the language frames in a written context.
Lexia Skill Builders	<ul style="list-style-type: none"> • Designed to help students further engage with content through writing tasks and speaking routines with a focus on oral presentation skills. • Students plan and draft a presentation script using the language and grammar they have learned in the online program. Opportunities for oral and written expression, peer collaboration, and skill refinement are embedded in the design of the Skill Builders.

The tables on the following pages detail the Lexia English content that is aligned to each California English language development (ELD) standard in grades K-6.
