

PROGRAM DESCRIPTION

Lexia® PowerUp Literacy® accelerates literacy gains for students in grades 6–12, whether they are several grade levels behind or show some risk of not meeting College- and Career-Ready Standards. Proven to be up to 5x as effective as the average middle school intervention, PowerUp enables students to make multiple years of growth in a single academic year. PowerUp respects the maturity of the adolescent learner with high-interest authentic texts and motivational elements. Without stopping for a test, educators—regardless of their area of expertise—can assess students’ skill level and deliver the right instruction.

KEY FINDINGS

Lexia supported diverse learning needs and dynamic implementations during the 2021-2022 school year, and **students of all levels made literacy gains while using PowerUp.**

- ▶ **Program Usage:** Overall, **80,237 students in grades 6-12 used PowerUp during the 2021-22 school year** across all Charter Schools. Lexia® PowerUp Literacy® accelerates literacy gains for students who are at risk of not meeting College- and Career-Ready Standards. On their way to achieving these gains, students used PowerUp for a **total of 877,273 hours** during the 2021-22 school year.
- ▶ **Skills Growth:** In total, Charter School students completed **1,642,856** activities in PowerUp this year -- each supporting the instruction of several specific literacy skills. Students who used the online component of PowerUp with fidelity during the 2021-22 school year **completed on average 71 activities** across the three strands of instruction.
- ▶ **Student Progress:** Students who used the online portion of PowerUp with fidelity made substantial advances towards grade-level content. **49% of these students covered three grade-levels of skills in just one year**, meaning they moved up one PowerUp Zone or more in all three instructional strands of the program (Word Study, Grammar, and Reading). By the end of the school year, the percentage of students working in K-2 skills in every strand dropped below **6%**.

PROGRESS WITHIN STRANDS

PROGRESS EXAMPLES

At the end of the year, students in the Advanced zone of Word Study were studying Greek and Latin word roots.

Students in the Advanced zone of Grammar at the end of the year were studying compound-complex sentences.

Students in the Advanced zone of Comprehension at the end of the year were reading complex texts in the 925L-1185L Lexile level range.

Students who used PowerUp with fidelity made substantial progress in each strand. Most students completed sufficient content in the program to move up to higher zones. By the end of the year, **the percent of these students working in the Foundational Zone dropped below 6% in every strand.**

HIGHLIGHT**

In one study, struggling readers who finished the year working in or above Advanced content were **3x more likely to be proficient on their end-of-year reading assessment.** Across the 21-22 school year, the percentage of these students working on Advanced skills in all strands grew from 1% to 39%.
