

Implementation Analysis

Lexia's Implementation Services help drive academic gains

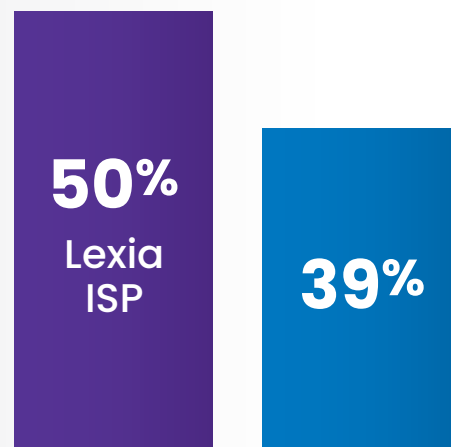

For many schools, fidelity of implementation for their instructional programs can have a significant impact on the academic gains their students achieve. Lexia's Implementation Services team provides a flexible, comprehensive, and ongoing support plan to help ensure that program implementation is seamless for teachers and students, and that the school can reach their desired outcomes.

During the 2015–2016 school year, Lexia analyzed the implementation fidelity of nearly 1,400 schools that had a site license for Lexia Reading Core5®. Approximately one-third had a Lexia Implementation Services Plan (ISP) as part of their strategy for implementing the program with fidelity. The analysis found that schools with a Lexia ISP achieved implementation fidelity with half of their students, compared to only 39% of students in schools that did not have a Lexia ISP.

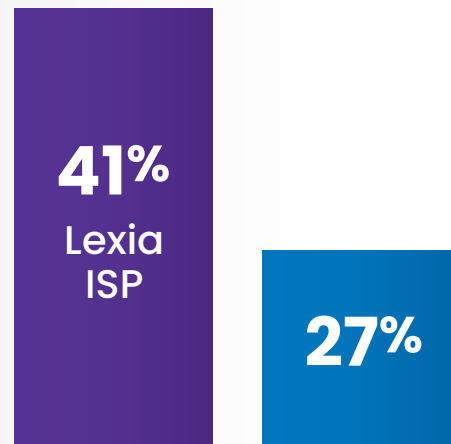

Lexia also analyzed schools whose student population could be classified as “high-risk” (more than half of the students began the year working on reading skills that were more than two years below grade level).

Approximately one-fourth of the schools in the analysis had a Lexia ISP. The analysis found that 41% of students achieved implementation fidelity when their school had a Lexia ISP, compared to only 27% of students in schools that did not have a Lexia ISP.

Students Reaching Implementation Fidelity

All Schools

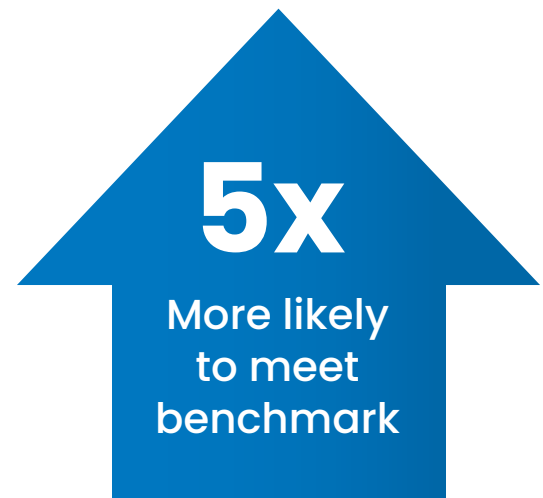

High-Risk Schools

Schools with a Lexia Implementation Services Plan achieved fidelity with a higher percentage of their students, compared to those schools without a Lexia support plan.

An analysis of all students using Lexia Reading Core5 in schools with site licenses shows that students who use the program with fidelity are 5 times more likely to reach their end-of-year, grade-level benchmarks in the program as compared to students using the program a minimal amount (20 minutes per week).

When considering your school's plan for implementing a new program, consider the positive effect that a Lexia Implementation Services Plan can have—not only on your rate of implementation success—but also on your students' likelihood of meeting their year-end benchmark goals.

Students who use Lexia Reading Core5 with fidelity are 5 times more likely to reach their end-of-year benchmarks.
