

A Powerful Partnership

Lexia Aspire and PowerUp Drive Literacy Success in Secondary Schools

Many Texas districts have invested in **Lexia® PowerUp Literacy®** to help secondary students reach their full academic potential. **Lexia Aspire® Professional Learning** builds on that progress by teaching educators how to weave literacy skills and strategies into their instruction.

Aspire Professional Learning Makes PowerUp More Effective

- ✓ Ensures teacher buy-in and a common understanding of the science of reading districtwide.
- ✓ Reduces the number of students needing tutoring during the school year.
- ✓ Reinforces literacy skills in every content classroom.
- ✓ Aligns with the PowerUp curriculum.

Aspire gives teachers the resources they need and PowerUp brings the resources to the student level.”

—Renee Hesson, Supervisor of Instruction for Secondary English & Fine Arts

Aspire helps educators to understand the why, what, and how of effective literacy instruction, empowering them to reinforce the skills students learned in PowerUp. Together, PowerUp and Aspire equip students and educators with the tools they need for academic success.

Teaching Literacy Skills and Concepts to Adolescent Students
