

# Higher Scores Across The Board

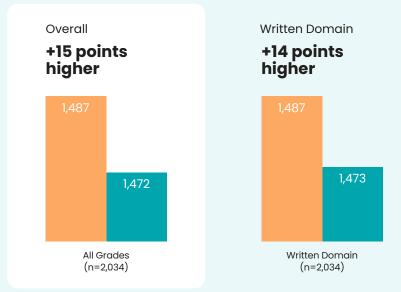

A Better Way To Learn English

Results from a 2020-2021 study showed students who used Lexia® English Language Development™ scored higher on a state language proficiency test than students who did not use Lexia English, even in hybrid and remote learning environments.

#### PARTICIPANT DETAILS

2,034 Emergent Bilingual students Grades K-5 21 schools Remote and hybrid learning

### **Higher scores with Lexia English use**

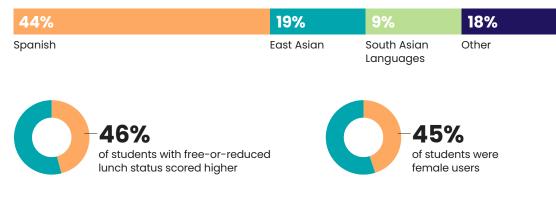

### **Higher Scores for Every Student**

Students that used Lexia English scored higher than nonprogram users across all demographics, including gender, race, free-or-reduced lunch status, and home language.

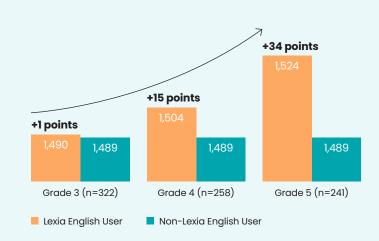

#### **Student Details**

### **Higher Scores at Higher Grades**

Lexia English users not only scored higher than their peers in every grade, but also tended to have successively higher average scores in grades 3-5 while their peers plateaued.

## **66** My students love [Lexia English] and it is helpful for practicing their English skills.
